

IPE Colloquium™ event 2027 – Abstract submissions selection rubric

Assessors	Kerri Barwick (APC), Tina Brock (APC), Ethan Tran (NAPSA)
Selection panel meeting	Late January 2027
Recipients notified of outcome	Mid-February 2027

IPE Colloquium™ event 2027 - Theme

The 2027 IPE Colloquium™ event theme is ***Preparing the future workforce: educating for shared capability in a digital health system.***

Learning outcome

The learning outcome to be addressed for the 2027 abstract submissions is:

Learning outcome 5: Explore the link between digital tools and emerging models of care to support shared capability.

Note: Other learning outcomes relevant to the 2027 program will be confirmed at a later date.

Submissions

APC encourages teams of **two** educators and health professionals from across different health professions to submit an abstract. Areas of focus could include (but are not limited to):

- An educational activity that has been effective in building skills in students and/or learners to use digital tools and emerging models of care to support shared capability in a digital health system
- A case study based on lived experience that provides examples of best practice, showing the link between digital tools and emerging models of care to support shared capability in a digital health system
- Guidance on how to design educational tools and frameworks for exploring digital tools and emerging models of care to support shared capability
- Strategies on how to implement or incorporate educational tools to support shared capability in emerging models of care for digital tools

Abstracts should be educational in nature and focused on sharing knowledge, evidence, experiences, or lessons learned. Abstracts are not limited to formal research findings. Submissions that primarily promote, market, or endorse a specific product, tool, platform, organisation, or service will not be considered.

All submissions **must** include element/s of interprofessional education and at least two presenters, each from different professions. Please note, additional presenters are welcome, but only 2 presenters per

submission will receive sponsored registration, travel to and from your city (in Australia), and 1 x night accommodation from APC.

Selection rubric

Each criterion will be marked on a 5-point scale, reflecting the quality and relevance of the abstract submission:

- 5. Excellent** | Outstanding submission that fully meets the requirements: highly relevant, insightful, and clearly articulated.
- 4. Good** | Strong submission that meets the requirements with minor gaps: well-developed and relevant.
- 3. Average** | Adequate submission that meets basic requirements: some relevant content but lacks depth or clarity.
- 2. Below Average** | Limited submission that partially meets the requirements: lacks clarity, relevance, or sufficient detail.
- 1. Poor** | Inadequate submission that does not meet the requirements: unclear, irrelevant, or missing key information.

Criterion	
	Abstract
1	The submission aligns to the 2027 <i>IPE Colloquium</i> ™ theme of <i>Preparing the future workforce: educating for shared capability in a digital health system.</i>
2	The submission aligns to principles of interprofessional education.
3	The description is concise, informative and engaging (e.g. providing the what, who, where, when and how)
4	The examples demonstrated activities that build students skills in using digital tools and emerging models of care to support shared capability.
5	The key learnings from the activity/activities are adaptable by others.
	Video
6	The presentation of data and content is concise, informative and engaging.
7	Overall quality of presentation – style and alignment with audience/event.
